

REACH Regulation 1907/2006

Dear Customer,

We, the REO AG, are aware of our obligations as a producer of electrical and electronic components and of the candidate list of substances of very high concern (SHVC).

None of our suppliers of raw materials used in the components we produce has notified us of the presence of any of the substances on the latest list dated 23.01.2024, at a concentration above the prescribed limitations. In the event of our suppliers' notification of the existence of one of these substances above the said concentration, or any further substance which may be added to the list in future, our clients will be informed of the specific products involved, that are supplied to them.

We can also confirm that REO AG

- does not add any of these substances during its manufacturing process
- does not manufacture articles which contains substances intended to be released under normal or reasonably foreseeable conditions of use.

Solingen, March 1st 2024

REO AG
